

IF you keep smoking our planet  
as we know it will perish!  
Also the chemicals in cigarettes and  
E cigarettes CAN kill you!  
And it harms others!

Your fate is written  
if you don't:

STOP  
NOW!

while  
you still  
can!

E-cigarettes, chewing tobacco, and just regular cigarettes have dangerous chemicals that can cause all sorts of cancers, lung, mouth, and throat cancer, you name it!

You should  
of stopped  
when you  
could,

When you smoke

Just because it feels good doesn't mean it's good for you!

**Fact Fact**  
Cigarettes contain an addictive chemical called **NICOTINE**

I know I'm bad and my friends are too

Just because it feels good doesn't mean it's good for you!

**Smoke**

If you are looking to quit smoking, please visit the program website

Vapes won't help you stop smoking. They still contain nicotine, so don't smoke if you're trying to quit.
