

Love Your Pet?

Did You Know ?

Tobacco smoke can give your pet asthma, respiratory problems & cancer.

Chances of your pet getting cancer...

Oral Cancer

5x higher for cats who live with secondhand smoke

Nasal or Lung Cancer

3x higher for dogs who live with secondhand smoke

No one wants to hear the diagnosis of cancer.

It's fatal 75% of the time in cats within one year of diagnosis.

An average life expectancy for dogs with cancer is 6 months.

Best chances of keeping your pet healthy?

Stop smoking.

Be Tobacco Free. Quit Today. It's FREE!
